

## Government House New Zealand

### Risk Assessment Management Form Visiting Government House complex

---

The following risk assessment and management information is provided to help school teachers plan a school visit to Government House Wellington. Teachers are responsible for evaluating the risks associated with visiting the Government House complex.

The purpose of risk assessment is to identify:

- Possible risks and hazards;
- Measures that will eliminate, isolate or minimise identified hazards; and
- The action to control and minimise the extent of injury.

To ensure our risk assessment is up to date please report any hazards observed and all accidents and incidents.

What are the risks and hazards?	What plan is in place?	Who is responsible for this?
Fire, earthquake, natural disaster	<p>All groups are briefed on the appropriate evacuation procedures at the beginning of the visit.</p> <p>Visitor Centre staff undergo regular practice drills.</p> <p>All groups are accompanied at all times with Government House Staff.</p> <p>Sprinklers and smoke detectors installed throughout the Visitor Centre and Government House.</p> <p>First aid provisions, first aiders and emergency wardens appointed and trained.</p> <p>Emergency equipment and food supplies located at Government House.</p> <p>In terms of seismic events Government House has been assessed to perform overall at 80% of the "current code".</p>	<p>Visitor Centre staff will provide a pre-tour briefing for all visiting groups.</p> <p>Government House staff and Fire wardens.</p>

<b>What are the risks and hazards?</b>	<b>What plan is in place?</b>	<b>Who is responsible for this?</b>
